BACHELOR OF PHYSIOTHERAPY

Have you considered medical careers other than MBBS? Physiotherapy is one of the promising fields to follow after class 12 if you like to pursue a medical career. For science students who want to work in the medical field, physiotherapy is a lucrative career choice

Physiotherapy as described by World Health Organization is a health care profession concerned with human function and movement and maximising physical potential. It is concerned with identifying and maximising quality of life and movement potential within the spheres of promotion, prevention, treatment/intervention and rehabilitation

Physical therapists are movement experts who improve quality of life through prescribed exercise, hands-on care, and patient education. Physical therapists diagnose and treat individuals of all ages, from new borns to people at the end of life

Scope of Practice and Career Opportunities

People's lifestyles in India have changed as a result of increased urbanisation. With the majority of today's youth entering the corporate sector, stress levels have skyrocketed. As a result, the demand for qualified physiotherapists is increasing. Physical therapists work in

- Orthopaedic Departments
- Sports Clubs and Academies
- Colleges and Universities
- Rehabilitation Centres

- Private and Government Sectors
- Gyms and Fitness Centres
- Schools for Physically Disabled and Mentally Retarded Children
- Woman wellness clinics
- Occupational health centres
- Software companies
- Own Private practice

Job Profiles for Physiotherapists

- Physiotherapist
- Academician
- Assistant Physiotherapist
- Research Assistant
- Researcher
- Sports Physio Rehabilitator
- Self Employed Private Physiotherapist
- Rehabilitation Specialist
- Consultant

In addition to clinical practice, other aspects of physical therapist practice include research, education, consultation and [health administration](#). Physical therapy is provided as a [primary care](#) treatment or alongside, or in conjunction with other [medical](#) services.

Eligibility Criteria for Physiotherapy Graduation Programmes (BPT 4^{1/2} Years)

To be eligible to apply for BPT programmes, you must have completed your 10+2 with at least 50 per cent marks in Physics, Chemistry, and Biology as obligatory subjects.

Professional Accreditations:

Indian Association of Physical therapists

What will I study?

By adopting a problem-based integrated thematic approach, the Physiotherapy degree offers foundation studies in Anatomy, physiology, Biochemistry, Pathology, Microbiology, Kinesiology, Biomechanics, Clinical subjects, Statistics, Research methodology, therapeutic practice and electrotherapy. Research and inter-professional working are considered core dimensions of the programme of study with students actively undertaking and engaging with research across the programme.

INTERNSHIP

During the 6-month compulsory rotating internship, students work in the Paediatrics, OBG, Orthopaedics wards, General Medicine and General Surgery wards, Neurology and Neurosurgery wards, ICU and Pulmonary Rehab wards. Community posting is also mandatory during this period.
