This Committee is very vital for the University which has to maintain very close rapport with the students. The committee should understand the trials and tribulations of students and their feelings, difficulties experienced examined within and outside the campus etc. The committee has to respond to these aspects without procrastination. Ragging is a menace facing every University in our state and elsewhere. Many instances of indiscipline either because of ragging or otherwise should be enquired into and the guilty has to be punished. Unless, this is done very effectively, the discipline in the University cannot be maintained.

The co-curricular and extra curricular activities are for all students. The personality development of the students is very important failing which he / she will come out of educational University as half-baked product. This can be changed and assured through improvement of soft skills i.e. group discussions skills, interview facing skills, written and oral comprehension, may carry almost 60% in the selection process. Organization of professional society activities, which improve building interpersonal behavioral skills, communication skills etc. is important. ISTE, IEEE, IETE, IIF chapters.

The students also must take part in various extra curricular activities such as games, sports, literary and cultural activities. They should be also advised to develop a interpersonal behavioral skills so that they will develop the ability to working in a group.
